

ANNOUNCING THE 2017

FOR STEM FACULTY & FUTURE FACULTY

Come explore evidence-based models of instruction for the undergraduate classroom.

Faculty and future faculty are invited to apply to attend a 2017 Summer Institute on Scientific Teaching. Accepted participants will learn practical strategies for enhancing student learning through the principles of scientific teaching: active learning, assessment and inclusive teaching. Participants will have opportunities to engage in interactive sessions, work in small groups with a trained facilitator, and present instructional materials for feedback and review.

2017 Summer Institutes

Dates	Institute*	Location
June 5 – 10	Northstar HHMI-funded	University of Minnesota
June 19 – 23	California Helmsley-funded	University of California, San Diego
June 20 – 23	Northwest HHMI-funded	University of Oregon
June 25 – 29	Northeast Helmsley-funded	University of Connecticut
July 17 – 21	Gulf Coast Helmsley-funded	Louisiana State University
July 24 – 28	Midwest HHMI-funded	University of Chicago

*Based on funding sources, we encourage applicants from research-intensive institutions to apply to HHMI-funded sites and applicants from teaching-intensive institutions to apply to Helmsley-funded sites. However, we welcome applicants from any institution or geographic area to apply to any of our six regional sites. Application deadlines in April and May. See website for details.

To apply, visit <http://summerinstitutes.org>.
